## **PARENTS**

Does your child have  
asthma?

Is your child under  
18?

Does your child live in  
Alameda County?

## **GOOD NEWS!**

You qualify to receive  
**FREE** in-home asthma  
education and asthma  
trigger reduction  
services.

Ask your child's  
doctor to complete a  
referral form. The  
doctor's office can  
call (510) 567-8280  
for referral forms.

# **The Alameda County Healthy Homes Project**

## **“bridging the gap between health and housing”**

The Healthy Homes Project helps improve the health of families with asthmatic kids by providing **FREE** in-home services:

### **Housing Assessment**

At the first home visit, your Healthy Homes Community Specialist will conduct a housing assessment. The assessment will include, but is not limited to, the following:

- ❖ presence of water leaks/damage, allergens, safety hazards, lead hazards, and pests
- ❖ condition of carpet/floor covering
- ❖ condition of ventilation system

### **Health Education**

Your Healthy Homes Community Specialist will provide your family with information on the following:

- ❖ asthma triggers and prevention
- ❖ maintaining a healthy home
- ❖ lead hazard prevention
- ❖ home safety concerns
- ❖ integrated pest management

### **Asthma Trigger Reduction Services**

The Project will determine what if any home repairs are necessary to reduce asthma triggers for the child. **FREE** Repairs may include allergen treatments, exhaust fan repairs, carpet removal, and minor lead-based paint repair work.

### **Referrals are made to other community services, as needed.**

### **On-Going Support**

Families are asked to participate in the Project for six months.

**Our homes can make us feel safe, provide privacy, and can support our good health or can trigger asthma & allergies, cause injuries & create stress.**

**The Healthy Homes Project provides FREE in-home services to help you keep your home as healthy as it can be for your family.**
